

Our profile

The Bildungszentrum Heimvolkshochschule Hustedt e.V is a recognized Institute for adult and youth education. Founded in 1948 and located in Hustedt, the Luneburg heathland near Celle, the center is known for its political education, social democracy and codetermination.

Our work is independent from the political parties and their ideologies, bound to the tradition of the workers movement and the European enlightenment. Liberty, equality and solidarity are our core values. Our goal is to originate and improve each individual's political judgement with the ability to act at work, in the economy and society.

In cooperation with our trade unions and further educational partners, we organize over 350 seminars per year with approximately 6500 participants. Conducting week long seminars as part of a boarding house school operation.

As an adult education center, we practice the motto "learning and living under one roof". We offer 8 seminar units and 115 rooms (3-star quality) in several buildings centered on approximately 70,000 m² of beautiful parkland grounds.

In addition, we provide a health-conscious menu from the regional cuisine for each individual taste. The entire property was remodeled in 2009 and for your leisure we offer a spacious dining room, rustical bar, library, swimming pool and sauna. Our highly motivated team of 60 employees are customer oriented, to satisfy the guests needs and their overall wellbeing. As a trade union training provider, we have only permanent staff covered by the collective agreements and are a recognized Educational training Company.

**Dear Ladies, Gentlemen,
dear Colleagues,**

Today the vast majority of enterprises operate at a European or global level. Time zones and state borders are losing their significance. Technological innovations are rapidly changing production and logistics.

These developments present enormous benefits but also risks for the employee. However, one thing is certain: a social and justifiable process of globalization across borders can only be formed with a strong foundation of codetermination.

European Works Councils has been in existence for over 25 years, and currently 1300 of them represent the interests of several million employees. There are approximately 320 EWC active in the Metal and Electrical Industry in Germany alone.

At the Bildungszentrum Heimvolkschule Hustedt e. V. we create educational experiences based on the foundation of more than 70 years of political and trade union educational work. Focusing on the current and new developments in the work sphere, politics and society.

The facilities can be used for periodic conferences with the central management (§ 29 EBRG or European Works Council Act of Germany), further committee conferences (§ 26 EBRG) as well as for training programmes (§ 37/38 EBRG). These regulations also apply for the SE Works Councils.

Our five-member pedagogical team is also available for training courses and educational events on request. Additionally, we can refer to our extensive pool of highly-qualified and professional speakers, advisors and specialists.
